

## We are back at school!

Our busy schedule for the 2007/08 school year has begun. The dental program's goal is to treat every child who returns a signed consent form. Given that enrollment numbers fluctuate at the beginning of each school year, planning exact dates early on can be challenging. However, we have mapped our two-prong geographic approach – north schools/south schools - for the upcoming school year with the following Title I schools currently scheduled:

Our newest staff dentist, Katherine Meyer, graduated from University of Nebraska Medical Center College of Dentistry in May 2007. She did her undergraduate work at Drake University. She moved to Austin in June and started working with our Dental Program.

Katherine says she is really enjoying working with the program's patients and is especially enjoying the opportunity to speak Spanish every day.

Our greatest appreciation goes to Katie Zingaro with Patterson Dental. We can't thank her enough for the outstanding support and service she continues to provide our mobile clinics.

Dr. Patrice Coons and Katie Zingaro
